Tuesday, May 7. 1723.

**T**HIS following Address has been presented to His Majesty by Colonel Charles Dubourgay, introduced by the Right Honourable the Lord Carteret one of His Majesty's Principal Secretaries of State.

To the King most Excellent Majesty.  
The humble Address of the Council and Assembly  
of this your Majesty's Island of Jamaica.

*Most Gracious Sovereign,*  
**W**E your Majesty's most dutiful and loyal Subjects, the Council and Assembly of this your Island, do humbly beg Leave to congratulate your Majesty on the seasonable Discovery of the late dangerous Designs formed against your most sacred Person and Government, in favour of a Popish Pretender.

We cannot sufficiently express our Abhorrence and Detestation thereof, or our just Indignation against all such Persons as have endeavoured by any Means to raise a Rebellion in any of your Majesty's Dominions; and cannot but declare our great Satisfaction in the wise Measures taken from Time to Time to defeat their Designs, and preserve the Peace and Tranquility, not only of your Realms, but all other your Dominions.

We beg Leave upon this Occasion to express the deep Sense we have of your Majesty's Favour to us, in sparing from your Person and Councils his Grace the Duke of Portland to be our Governor; a Person so distinguished, not only by the Merit of his Family, their Attachment to the Liberties of your People, the Protestant Religion and Succession in your Majesty's illustrious House, but by his own exalted personal Virtues, that we cannot but take your Appointment of his Grace to preside over us, as an undeniable Proof of your Majesty's great Goodness to us.

We do therefore once more humbly beg Leave to assure your Majesty, we will endeavour to express our Sense thereof, by all the Returns of Duty and Gratitude in our Power; and that we will not only discountenance all Persons whatsoever any Way disaffected to your Majesty's Person or Government (if any such, tho' we trust very few there are among us,) but will upon all Occasions, to the utmost of our Power, stand by, and assist your Majesty in Maintenance of your undoubted Title to the Imperial Crown of Great Britain, and to this and all other your Dominions thereto belonging, and in supporting the Succession thereof in your Majesty's Royal Protestant Line against all your and their Enemies whatsoever both at Home and Abroad.

*London, May 7.*

Yesterday arrived a Mail from Holland.  
**P**etersburg, April 19. The late Vice Chancellor Schaffirof, who was thought to be at this Time on his Way to perpetual Banishment to Siberia, is conveyed to Novogrod, in order to be brought hither to be further examined. It is rumoured, that our Troops and the Turks are come to Hostilities near Asoph. Prince Gallitzin is going to Ucrania, to take upon him the Command of the Muscovite Troops, at present commanded by General Allard. M. Iouanowitz, Vice Admiral of the Gallics, is preparing to go to Veronitz.

*S*tockholm, April 28. This being the King of Sweden's Birth-Day, on which his Majesty enters into his 48th Year, there is to be a publick Drawing-Room and Ball on this Occasion in the Queen's Apartments this Evening; his Majesty is not expected hither from Ekellund till the 30th instant. The Holstein Minister M. Bassewitz, has not yet had Audience of the Queen. M. Desluchet, the Czar's Minister at this Court, has received such Orders to press that the Treaty of Neustadt may be ratified by the States of the Kingdom, and that the Czar may be acknowledged Emperor; but 'tis said, Count Horn has signified to this Minister, that he must have Patience as to these Matters till the close of the Dyet.

*V*ienna, May 1. The Counts de Staremberg and Kinski, the Imperial Commissioners at the Dyet at Presbourg, have strongly pressed the Hungarian States to come to a speedy Determination of the Matters under their Deliberation before the Emperor's Arrival, his Imperial Majesty being expected at Presbourg on the 25th instant. Frequent Conferences have been lately held here, to find out convenient Funds to answer the necessary Reparation of the damaged Fortifications at Buda; to which End the Jews of this City have offered considerable Sums, upon Condition the Court will prolong the Protection formerly granted to them.

*H*amburg, May 4. Advices from Dantick say, that the Duke of Mecklenburg having received an Express from Riga acquainting him that the Muscovite Court was there, and that the Czar was desirous of seeing him, he immediately set out for that Place, because the Czar intends to make but little Stay at Riga, and to return to Petersbourg about the Middle of this Month. The Muscovite General Weisbach is ordered to continue in Ucrania with an Army of 30000 Men, to cover that Province against the Turks. Letters from Moscow relate, that before the Czar's Departure from that Capital, he took an exact View of all the Cannon and Mortars in the Arsenal, marking with his own Hands such of them as he intends to have new cast. 'Tis said, that as soon as the Navigation on the Wolga becomes more practicable, 40 or 50 Cannon for Balls of 24 Pound, and several Mortars, are to be sent to Astrachan; by which 'tis imagined the Muscovites design to build more Forts on the Frontiers of Georgia and Persia. Preparations are making at Moscow for fitting out a Caravan to China; to which Purpose, Merchants are daily repairing to Moscow from Petersbourg and other Places. It is said also, that the Muscovites are constantly employed in building Ships and Gallies on the Docks at Archangel, tho' 'tis not yet said upon what Design.

*H*ague, May 10. Advices from Lisbon say, that the Embargo is taken off the Dutch Fleet of Merchant-Ships at St. Ubes, the Captain of one of the Men of that Convoy having yielded himself Prisoner, which 'tis said the Portuguese Court required as Satisfaction; but he was afterwards soon set at Liberty, and the Fleet had permission to sail when the Commodore pleased. 'Tis said however, that one of the Ship-Masters, of the Number of those whom the Corrigidor caused to be arrested, is dead of the Blows he received ashore. What Satisfaction may be demanded

intended for that is not yet known; but the Cor-  
rigidor, who is reputed guilty, is fled. The  
Court of Justice for the Province of Holland find-  
ing Gaming to be very destructive to Youth, has  
newly forb'd playing at Basset, Pharo, and all  
other kinds of Games at Hazard, both in pri-  
vate Houses and publick.

**A**Gentlemen having discovered, among  
the Manuscripts of his Ancestors, Nostrum, or an extolling Me-  
thod (known to none now living but himself) of curing Eyes and  
Eye-lids of all Soreness, Redness, Blindness, Specks, Philins, Rheum,  
and all other Allings and Diseases of the Eyes, if curable, ; for if  
there be any inward Decay of the Eye itself, or the visual Power  
wasted, or in any Degree perished, he does not pretend a Cure. He  
has practised this Cure for some Years, in private, and the great  
Success it has met with, occasion this Publication. He would in  
this Advertisement, as he does in his Practice and Reputation, avoid  
every Thing of the Quack, and it is therefore he chuse to speak  
thus with Regard to himself and the World. His Method is no way  
dangerous, his Medicines and Applications are purely innocent,  
and what none of our eminent Oculists can boast of; he needs not  
the hurtful and dangerous Use of Instruments in the working of the  
Cure, through which too many curable Eyes become irrecoverably  
lost. He is to be spoke with from 8 to 10 in the Morning, and from  
4 to 6 in the Afternoon, at Mr. John Hammond's, in Great Kyn-  
g-street, Harton-Garden.
